Boil water notice for the City of Combes

July 27, 2022

Due to our failure in maintaining adequate disinfectant residuals, City of Combes water systems PWS I.D 0310021 are to notify all customer to boil their water prior to consumption, washing hands/face, brushing teeth, drinking. Children, seniors, and persons with weakened immune systems are particularly vulnerable to harmful bacteria, and all customers should follow these directions. To ensure destruction of all harmful bacteria and other microbes, water for drinking, cooking and ice making should be boiled and cooked prior to use for drinking water or human consumption purposes. The water should be brought to a vigorous rolling boil and then boiled for two minutes. In lieu of boiling, individuals may purchase bottle water or obtain water from some other suitable source for drinking water or human consumption purposes. When it is no longer necessary to boil the water, the public water system will notify customers that the water is safe for drinking water or human consumption purposes. If you have any questions concerning this matter you can contact the Combes City hall at (956)425-7131 or water operator Michael Gonzalez at (956)778-3141
